

For any analysis request :

→ **Contact a member of PAPPSO to discuss** the scientific objectives.

An engineer will provide the best procedures accordingly to the samples and the objectives including the **validation the extraction method and/or the buffers composition.**

→ Complete the analysis request form that will be sent to you by PAPPSO.

→ Send the samples in **dry ice** at the beginning of the week :

To the attention of : PAPPSO engineer in charge of the analysis
